

NEXORA

Nexora AI Documentation

Document ID: NX-AI-001 **Version:** 3.7 **Publication:** April 6, 2026 **Last updated:** September 16, 2026

Department: Data & AI **Category:** AI Product Documentation **Confidentiality:** Internal / Customer Technical **Applicable customers:** All

Fictional training dataset. All entities, people, locations, policies, prices and contact details are synthetic and created solely for RAG development.

AI Capabilities

- Text generation
- Structured extraction
- Classification
- Document analysis
- Vision analysis
- Knowledge-assistant workflows

Nexora AI is separate from Cloud API quotas. An organization can have Cloud API capacity and still exhaust its AI request or AI-action quota.

Models and Limits

Model	Primary use	Context limit	Vision
Nexa-Text-2	Generation and summarization	128k tokens	No
Nexa-Reason-1	Multi-step reasoning	64k tokens	No
Nexa-Vision-1	Image/document understanding	128k tokens	Yes

Standard-plan prompt limit: 64k input tokens per request on standard plans; Enterprise may negotiate higher limits.
Enterprise may negotiate higher limits.

Standard file limit: 50 MB per file on standard plans; 500 MB per file for Enterprise. Supported formats: PDF, DOCX, TXT, CSV, XLSX, PNG, JPG.

Data Retention

Standard plans retain AI request content for AI request content is retained for 30 days on standard plans; Enterprise can select 7, 30, or 90 days. Enterprise can select 7, 30 or 90 days through the negotiated data-processing configuration.

Retention settings affect stored request content; they do not guarantee immediate deletion from transient processing systems during an active request.

AI Safety Controls

- Workspace-level AI enable/disable control
- File-type restrictions
- Prompt and output filtering
- Administrative usage visibility
- Enterprise policy controls

- Audit events for administrative changes

Nexora AI should not be used to make automated high-impact decisions about individuals without appropriate human review and governance.

API and Rate Limits

Plan	AI request rate	AI actions
Starter	30 requests/minute	500/month
Professional	60 requests/minute	5,000/month
Business	60 requests/minute	25,000/month
Enterprise	Negotiated	Negotiated

A rate limit response may include Retry-After. The client should implement backoff rather than immediate repeated retries.

FAQ

Can Nexora AI read PDFs? Yes, PDF is a supported file format within the applicable file-size limits.

Does Cloud's 120 requests/minute limit apply to AI? No. AI has its own request-rate controls.

Can Enterprise choose a different retention period? Yes, 7, 30 or 90 days are available through enterprise configuration.
